

Wien wort auf dich! 🎵

I am Senem form İstanbul.

I will try to explain the feelings of the İstanbul - Vienna ESC line on me.

Vienna is smaller, less populated than where I come from. It's more green and calmer.. it's like a open-air museum and it made me fall in love with this city.

In the beginning, I was worried about that if I felt alone in this new city. I was lucky 🍀 My colleagues and mentor always supported me.

Families have always been very friendly and helpful. And kids... I cannot describe my love to them. They are my playmates, or my first friends in Vienna. 😊

Another reason why my volunteering experience was so good was that the people who were working in Grenzelos always had a solution-oriented approach. It was most important thing for me. Grenzenlos organized many enjoyable events so I could meet other volunteers.

I learned many things about living abroad and solidarity. I'm thankful that who built these spaces and organized. I'm very happy to be part of this project.

In closing, I should say that
I will never forget.

Thanks to my friends who were with me and the kindergruppe Farbklecks family, I did not feel alone even in the pandemic.
