

Volunteer report by MARTA
European solidarity corps volunteer at "DIE GATSCHHÜPFER"
from SEPTEMBER 2020 to JUNE 2021

HELLO!

I'm Marta and I have been in Vienna from September 2020 until June 2021 doing a volunteering in a Kindergarten, let's say a special one because it was a Waldkindergarten.

I'm not going to explain my experience because it would take me much more than a page, but I'm just going to say that making this volunteering was one of the best decisions I have ever taken.

I have learned a lot in my volunteer project, my ideas changed and of course even the kids taught me very interesting and new things.

But I think that much more than education and kids I learned a lot about myself. Just starting a new stage alone, in a new country makes you learn a lot about yourself and about life in general.

Everything is different when you go out from your comfort zone but that's not a bad thing, quite the contrary. After this year, I have unforgettable experiences and I made important and good friendships.
